OUR LEADING LIGHTS OF EXCELLENCE PASSION WITH PERFECTION

CHAIRMAN'S AWARD

“Every accomplishment starts with the decision to try”

With this vision our esteemed school Chairman Dr. R.K.Tandon has set a new milestone for the school. Kamal Public Sr.Sec.School has been ranked second in the challengers category (West Zone), by Times Group. Dr. R.K Tandon has been felicitated by a Certificate of Appreciation by Times Education Icon, at Phd.Chamber, HauzKhas by the honourable member of parliament Sh. Parvesh Verma. Dr. R.K Tandon with his substantial vision truly proves that “our life is composed greatly of dreams, from the unconscious and they must be brought into connection with action and woven together.”

PRINCIPAL'S AWARD

“If your actions inspire others to dream more, learn more, do more and become more, then you are a leader.”

Motivation is the main ingredient of success that ignites the feeling to act further and propels one towards bigger achievements. This aptly defines our school Principal Ms. Reema Tandon. To recognise this excellence and her extraordinary contribution in the field of our education system; she was conferred with 'DELHI SHREE AWARD' on November 03, 2019 by News 7, Media Group. This award was presented in a scintillating function in Hotel Raddison Blu, Paschim Vihar. Ms. Reema Tandon always plays a constructive and creative role in empowering the future generation of India with a valuable asset “Education”, which is commendable.

About Us...

'Learning is the eye of the mind'.

Kamal Public School is a leading co-education institution in the heart of Vikas Puri. The greenery inside and outside the school and a beautiful temple area near the entrance makes the school environment serene and peaceful which the students of KPS relish.

With our motto 'Knowledge, Perfection and Strength' we believe in providing a solid platform to engineer the best future for our students. Our goal is an educational experience that stimulates mind and imagination. This broadens the perspectives of our students.

The teaching methodology adopted in the school is comprehensively learner centric. They emphasize on teaching concepts to build a strong foundation. Our teachers follow innovative pedagogy which aims at increasing knowledge and rational thinking.

The teachers of our school are not only the teachers but the mentors. Apart from imparting knowledge they leave no stones unturned to shape the outlook and personality of a student in all the fields be it academics, sports, performing arts and other activities. The school strives to provide an appropriate environment conducive to the blooming of each student into their best version.

“You can teach a student a lesson for a day, but if you can teach him to learn by creating curiosity, he will continue the learning process as long as he lives”.

Kamal Public Sr. Sec. School keeps this in mind and channelizes the potential of their children to the optimum so that they can become successful professionals and good citizens. I believe this is only possible in a holistic, student centric environment that we provide in our school.

We are living in a rapidly changing world of constant progress, persistent in search of the unknown. Each year of our school is a milestone that marks our growth; unfolds our imagination and gives life to our thoughts.

At KPS, we know that both academics and co-curricular activities have complimentary benefits. There is a symbiotic relationship between these two areas and hence students are taught to effectively balance both.

With such qualities imbibed within them, our students are bound to ‘Arise, Awake and Ascend’ to greater heights with a greater tomorrow. Consistent support of the parents empowers us to do better every day.

Dr. R.K.Tandon
(Chairman)

“Put your heart, mind and soul into even your smallest acts, This is the secret of success”

The youth have an edge over the other age groups in adapting to new technologies and extracting their full benefits for various purposes. The mission of KPS is solely dedicated and committed to train and equip students with the latest knowledge and skills in the chosen fields in the backdrop of Indian Ethos and Values. Here at KPS, we encourage our students to be independent and creative.

Dear students, learning is personal to each one of us. As life learners, you should decide what, when and how to learn. If you plant the desire for success in yourself then you’ll be unstoppable. I know it will be hard, it will be exhausting and some times it will be lonely, but remember it will be worth.

We are proud and privileged to be a part of your journey towards success and a great future.

Mrs. Reema Tandon

150th ANNIVERSARY OF MAHATMA GANDHI

Today we are living in an era of 'How to impress' but Gandhiji's vision was 'How to Inspire.' Gandhiji's life became an inspiration for all of us.

Activities like painting, colouring, slogan writing, poster making and speech were organised for the students. The students keenly and enthusiastically participated in them.

CLUBS AND ENRICHMENT PROGRAMS AT KPS

“Some strive to make themselves great. Others help to see and find their own greatness. It’s the latter who enrich the world we live in”.

KPS has been very active in initiating enrichment program to enhance and add dimension to the academic culture of the school. These enrichment program are held throughout the year for the teachers and students to present them with opportunities to challenge themselves through creative, inter disciplinary research, both independent and faculty mentored.

Our multiple clubs-Eco clubs, Personality Development Club, Theatre and Drama Club, Chef’s Club, Maths Club, Creative Writing Club, Ancient History Club and the Philately Club provide our students with veritable podium to reinforce and aggrandize our little Kapsians.

Various workshops, in-service training and events are organized in the KPS premises to improve the communication skills, personality, creative and intellectual mindsets of our Kapsians as a goal to enhance and build holistic and confident leaders.

DIGITAL CLASSROOMS

Technology is an accelerator, but alone and of its own does not enable any change. The greatest power is education of our youth and with this belief, KPS has introduced “Tata Class Edge” in the classrooms which are an innovative and comprehensive educational solution which has been designed to help the teachers deliver high quality instructions with an effective blend of classroom activities and interactive multimedia demonstrations for better learning and student outcomes.

INNOVATIONS AT KPS

Every great teacher and every great school constantly works towards creating better learning conditions for students. Kamal Public Sr. Sec. School is working towards expanding definitions of student success and creating a new model of school to comfort them by providing qualitative education with succor and power to explore.

- The school has introduced “Edunext School Management software” with mobile apps for students, parents, teachers and management. This cloud-based online ERP ensures smooth functioning of the day-to-day school operations whereas enables parent-school interaction in an instant manner bridging all the possible communication gaps.
- The installation of high definition cameras in every classroom and corridor is an initiative taken by KPS to monitor personal safety of students, communication, surveillance and to maintain occupational health amongst all.
- The school has installed solar panels for water and electricity conservation as an initiative towards protecting environment for the future generations.
- Educational infrastructure is a crucial element of the learning environment in schools. To cater to these needs, KPS has modernized its reception into a centrally air conditioned one. A new, well-equipped children’s library section has also been reckoned in the premises.

All new improved water dispensers have been lodged and all washrooms have been accoutered with modern equipments keeping in mind hygiene and sanitation.

These are our little steps taken towards the achievement of perfection in order to impart quality education in KPS.

ORIENTATION DAY

“A parent is a teacher at home and a teacher is a parent in school, where the child is the centre of our universe.”

The orientation program proved to be a sincere effort in educating the parents to look after and guide their children in a proper manner. It also helps in evolving a common teaching strategy and helped the parents in identifying suitable follow up methods to reinforce the learning process of their child.
